

Franchise with rent-a-tipi.com

Rent-a-tipi.com is a well-known business involved in renting out tipi-shaped tents in Austria, Switzerland and Germany. We are currently looking for independent and creative entrepreneurs anywhere in the United States who are interested in joining rent-a-tipi.com as a rental partner for an own region to develop.

Whats in for you?

Launching a “Franchise” business offers distinct advantages over a stand alone start up. A Franchisee is equipped from day one with a well established business model, a mature brand and support from a Franchisor with direct experience of the journey they are about to embark on. Investing in a Franchise reduces risk and accelerates growth, its an increasingly popular way for individuals to launch their own business without having to "re-invent the wheel".

The question remains whether a RENT-A-TIPI Franchise is suitable for you... If you have a mind for business, are physically active, self-motivated, efficient, can communicate at all levels and are prepared for the initial financial outlay, the answer is ‘yes’. Of course it will help to have enthusiasm for the service we offer too – part of our charm is that we know the ins and outs of what makes an impressive and successful outdoor event. You will also understand that 5-star customer service is invaluable to the success of our business.

The business activities you will undertake will include but are not limited to:

1. Local marketing to specific target groups
2. Marquee and equipment delivery, build, removal (and the management of your staff)
3. Simple business administration.
4. Client meeting management
5. Business Development

But there's a more to it than that... you'll need to network with local venues, caterers, event planners and so on to keep new business coming in as part of your local marketing, so it will help if you're a "people-person". We believe that adults of any age and business background could have the ability to make RENT-A-TIPI work for them – both financially and as an enjoyable, rewarding venture. Plus, we provide training necessary to help you at the start and throughout your RENT-A-TIPI business life. However, we're seriously committed to preserving our amazing reputation – the backbone of our business – and to creating mutually beneficial partnerships with our franchisees. That means we'll take stringent steps early on in the process to find out if a RENT-A-TIPI franchise is suitable for you and for us.

Our recommendation how to start your business:

We recommend you to start with a minimum quantity of 3 giant hat tipis. It covers enough space for up to 170 people including dancefloor and music. Furthermore you can also rent out separately 3 tents or at the same time different combinations. Our package comes with wooden floor, furniture and light. The perfectly fit stretchtents can be separately rented out or be used as an outside bar, as catering tent, as a ceremony tent for weddings etc.

This is a starting package investment of:

3 x giant hat Tipi – 45.000 USD plus 1500 USD connecting parts

2 x Stretchtents 7 x 10 m – (colour white/beige on the outside) – 20.000 USD

400 squaremeter wooden floor (easy connect system) – 20.000 USD

Furniture package: 20 tables and 40 benches – 8000 USD

Total investment: 93.000 USD. (Plus Shipping)

With this package you can cater up to 250 people. Given that – renting out this whole package for one weekend – your rental turnover will be approximately 20.000 USD. Our numbers speak by themselves.

What else do you need as an initial investment: You will need a transport vehicle and a big trailer to start with. You can hire to begin with but as soon as business starts to roll you need your own vehicles.

WAREHOUSE:

To store you material we recommend you to find a warehouse which is well located within your rental area (150 miles perimeter) with a minimum size of 100 squaremeter.
